

Wai Yan Thurein

Frontend Developer

As a frontend developer, I specialize in **React** and have a proven track record of delivering clean, user-friendly interfaces that drive engagement and achieve results. With a strong collaborative spirit and a passion for innovation, I bring a creative approach to every project I work on, and am always looking for new challenges to push my skills further.

EDUCATION

BE Civil

Technological University (Taungoo)

12/2017 - on hiatus

PERSONAL PROJECTS

Note App (02/2022 - 03/2022)

- Developed a single-page note-taking application using React and Material-UI, allowing users to create, edit, and delete notes.
- Utilized React Hooks to manage state and integrated IndexedDB for client-side database storage.
- Designed and customized the user interface using CSS and the Material-UI component library.
- Implemented responsive design principles to ensure optimal display across devices.
- Deployed the application using GitHub Pages.
- Demo: [React Note App](#)

Instagram Clone (03/2022 - 05/2022)

- Developed an Instagram clone application using React, React Hooks for state management, and IndexedDB for client-side storage.
- Designed and customized the user interface with CSS, creating a visually appealing and responsive application.
- Implemented CRUD features such as uploading media.
- Deployed the application using GitHub Pages.
- Demo: [Instagram Clone in React](#)

SKILLS

Proficient in React (including experience with React concepts, React Hooks, and Context API)

Strong understanding of JavaScript (including ES6+ syntax and working knowledge of functional programming concepts)

HTML/CSS (including experience with CSS preprocessors such as Sass/SCSS)

Experience with modern frontend frameworks and libraries (such as Bootstrap, Material-UI, or Tailwind CSS)

Understanding of web development concepts and terminology (such as HTTP, APIs, DOM, etc.)

ACHIEVEMENTS

A Portfolio Website (05/2022 - 08/2022)

Developed and launched a portfolio website showcasing my React development skills and personal projects. Integrated with Git for version control and deployed on GitHub Pages. Maintained and updated website regularly to reflect latest projects.
